

## Momentum First Demonstration Mission Status Update #5

September 8, 2022

SAN JOSE, Calif.--(BUSINESS WIRE)--Sep. 8, 2022-- Momentum Inc. (NASDAQ: MNTS) ("Momentum" or the "Company"), a U.S. commercial space company that plans to offer transportation and other in-space infrastructure services, today provided its fifth Mission Update on its inaugural Vigoride mission that launched on May 25.

Since the Company's [last update on August 3](#), Momentum has successfully deployed an additional payload from its Vigoride orbital transfer vehicle. SelfieSat, a two-unit cubesat developed by Norwegian student space organization Orbit NTNU, was deployed at the end of August. The satellite will be taking a selfie using an external screen and displaying pictures sent by the public while a camera mounted on the SelfieSat arm photographs the screen with the Earth in the background. View a video of the SelfieSat team making contact with its payload [here](#).

Momentum initially deployed two FOSSA satellites from its Vigoride orbital transfer vehicle on May 28 and the deployment of four additional FOSSA satellites occurred in July. The Company also deployed one satellite from California State Polytechnic University at Pomona on May 25 from a third-party deployer that flew on a second port of the launch vehicle. A total of eight Momentum customer satellites have now been deployed in low Earth orbit, and two yet-to-be-deployed FOSSA satellites remain on Vigoride. The Company will continue efforts to deploy the remaining payloads. Read all updates from Momentum's first demonstration mission [here](#).

"The Momentum team continues its work to deliver for our customers and learn everything we can from our first demonstration mission," said Momentum Chief Executive Officer John Rood. "We're thrilled that the Orbit NTNU students can conduct their SelfieSat mission and that FOSSA can continue to expand its IoT constellation. We're applying the important lessons learned from this mission as we look toward our next demonstration flight targeted for December 2022."

Momentum's plans for additional launches of the Vigoride vehicle remain as stated in the Q1 earnings call on May 10, 2022, with [agreements signed with SpaceX](#) for launches on every upcoming Transporter mission through 2023.

### About Momentum

Momentum is a U.S. commercial space company that plans to offer in-space infrastructure services, including in-space transportation, hosted payloads and in-orbit services. Momentum believes it can make new ways of operating in space possible with its planned in-space transfer and service vehicles that will be powered by an innovative water plasma-based propulsion system that is under development.

### Forward-Looking Statements

This press release contains certain statements which may constitute "forward-looking statements" for purposes of the federal securities laws. Forward-looking statements include, but are not limited to, statements regarding Momentum or its management team's expectations, hopes, beliefs, intentions or strategies regarding the future, projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, and are not guarantees of future performance. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict and many of which are outside of Momentum's control. Many factors could cause actual future events to differ materially from the forward-looking statements in this press release, including but not limited to risks and uncertainties included under the heading "Risk Factors" in the Annual Report on Form 10-K filed by the Company on March 9, 2022, as such factors may be updated from time to time in our other filings with the Securities and Exchange Commission (the "SEC"), accessible on the SEC's website at [www.sec.gov](http://www.sec.gov) and the Investor Relations section of our website at [investors.momentum.space](http://investors.momentum.space). Forward-looking statements speak only as of the date they are made. Readers are cautioned not to put undue reliance on forward-looking statements, and, except as required by law, the Company assumes no obligation and does not intend to update or revise these forward-looking statements, whether as a result of new information, future events, or otherwise.
